PROGRAMME SUMMARY

First impressions are often made within seven seconds of a meeting and are difficult if not impossible to change. This course helps you leave a great first impression and follow the unwritten rules of business and work communication.

EuroMaTech's Mastering Business Etiquette & Protocol training course addresses how to deal with others in a business setting, taking into account differences in culture and region. This training course will give tips on how to apply proper manners and business etiquette in many different settings. Many diplomatic 'incidents' occur due to lack of understanding of various protocol standards. In this training course, we introduce the international rules of protocol that need to be implemented during formal occasions and visits.
