The 10-day Contract & Project Management Skills for Non-Professionals

INTRODUCTION

This 10-day Contract & Project Management Skills for Non-Contract Professionals training course seeks to provide you with skills to enhance your understanding of key competencies in relation to contracts and commercial obligations and how projects should be managed. By applying this knowledge to your professional role and the tasks and challenges you face in your work, you will augment your contribution to business contract negotiation and project management and enhance the chances of project success.

This practical, intensive 10-day EuroMaTech training course gives participants the basic knowledge, processes, skills, tools and techniques recognized as good practices that the contract and project professionals and their teams worldwide use in enhancing the chances of project success.

Participants on the 10-day Contract & Project Management Skills for Non-Contract Professionals training course will develop the following competencies:

- Projecting confidence by understanding one's own abilities
- Effective communication to carry a persuasive message across to others
- Building connections that allows you to influence others
- Help your team find creative solutions to workplace challenges
- Gain insight into how projects are implemented
- Learn how non-project professionals can aid in the successful implementation of a project

WHO SHOULD ATTEND?

The 10-day Contract & Project Management Skills for Non-Contract Professionals training course is suitable for, but not limited to, the following audience:

- Professionals and leaders – whether involved in contract management or not – who wish to learn more about contract negotiation and risk management in order to improve their leadership and management skills
- Personnel moving into contract management roles wishing to improve practical and legal knowledge

- Those who are involved in projects but do not manage them, such as Project Team Members, Coordinators, Stakeholders, Analysts, etc., who want to increase their level of effective and efficient contribution to the success of their project
- Anyone in an administrative role in project environments, such as Executive Assistants and other Administrative Professionals, who wish to increase their level of effective and efficient contribution to the success of any projects they are involved in.

PROGRAMME OBJECTIVES

Participants on EuroMaTech's 10-day Contract & Project Management Skills for Non-Contract Professionals training course will be able to:

- Understand the fundamentals of contracts

- Learn what variations can be used to reflect differing requirements
- Understand the jurisdictional variations in international business
- Identify the degree of convergence is there in international contracts
- Learn what are some of the usual clauses in contracts
- Understand how can we identify and manage risk in contracts
- Obtain a fundamental understanding of basic aspects of managing projects
- Familiarize and use essential vocabulary and terminology in managing projects and apply basic project management knowledge, skills, tools and techniques to increase both work efficiency and effectiveness on the project team
- Plan, organize and control project activities by using proven project management skills of successful projects
- Learn and implement the five project management process groups to be performed for any project.
- Identify and understand the ten knowledge areas of project management
- Realize the importance of both hard skills and soft skills as these are applied to different aspects of successfully managing a project for the project team

- Learn how to proactively plan, monitor, track, update and control risks and opportunities to increase the probability of project success
- Manage the on-going needs, concerns and expectations of stakeholders to effectively engaging them in project decisions and execution to support the project's interests
- Establish an effective and efficient communication strategy to get cooperation and coordination from stakeholders towards meeting the project objectives

TRAINING METHODOLOGY

The 10-day Contract & Project Management Skills for Non-Contract Professionals training course will combine conventional presentations with the use of course materials and interactive practical exercises, supported by case studies, etc. It includes concepts definition, experiential exercises, practical examples, dialogues and discussions. A high level of delegates' participation is expected to relate the contract management and project management knowledge and skills learned in the programme to the actual needs at their workplace.

PROGRAMME SUMMARY

This EuroMaTech 10-day training course covers for the non-project professional essential factors in the contractual process from negotiation to risk management and issues involving third parties.

The training course also provides non-project professionals a unique and simplified approach of the basic project management skills as practiced by those manage projects worldwide. It provides them with a practical and effective guide to learn what project professionals and their teams are doing and to acquire the project management skills to be an active, value-adding participant to the project team.

IN-HOUSE TRAINING

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.
