Business Analysis within a Project Environment

INTRODUCTION

Today's organisation deals with ever increasing levels of complexity and the ever increasing speed of change. In order to achieve maximum effectiveness managers must continually sharpen their skills.

In this Business Analysis within a Project Environment training course you will study how to:

- Understand and apply best practices of the business analysis discipline
- Conduct a business-needs analysis to elicit stakeholder requirements
- Utilise methods, tools and techniques to identify issues and opportunities
- Develop effective requirements and communication plans
- Prepare, manage and implement solution assessment and validation

WHO SHOULD ATTEND?

This EuroMaTech training course is useful for anyone who needs to understand or apply knowledge and skills from the business analysis discipline.

- Project managers who want to better understand the role of business analysis and business analysts within a project
- Business analysts who want to develop their ability to contribute within a project
- Project personnel and stakeholders seeking to advance their careers who desire to strengthen their professional abilities including:
 - » Functional Managers
 - » Developers and Testers
 - » Systems Analysts

PROGRAMME OBJECTIVES

- Understand how a business analyst acts as an intermediary managing the interests and needs of both the business / project management and IT communities
- Learn how to use a systematic approach based on "A Guide to the Business Analysis Body of Knowledge® (BABOK® Guide)" Version 2.0 and "A Guide to the Project Management Body of Knowledge (PMBOK® Guide)" 5th Edition
- Understand and apply the systematic framework for conducting business analysis activities through the phases of the business analysis life cycle
- Provide best practices and theory with practical tools and techniques that can be applied immediately in your own organisation

TRAINING METHODOLOGY

Participants will learn by active application of methods, tools and techniques presented throughout the Business Analysis within a Project Environment training course. The sessions contain focused input from the training course leader, combined with practical sessions enabling delegates to apply the methods and tools to exercises and case studies drawn from a range of industries. The EuroMaTech training course caters for different learning style preferences through group work; individual work, participant discussion, facilitator interaction and self reflection.

IN-HOUSE TRAINING

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.

PROGRAMME SUMMARY

This EuroMaTech training course covers the essential skills that are necessary for the effective contribution from the business analysis discipline to a project. The programme begins with consideration of business analysis skills within a project context. It then moves to consider tools for requirements analysis and the critical skills that are needed for an effective business analyst, including prioritization, analytical thinking and conflict resolution.

EuroMaTech has been reviewed and approved as a provider of project management training by the Project Management Institute (PMI)

Participants attending this training session are entitled to receive:
25 Professional Development Unit (PDUs)

The PMI logo is a registered mark of the Project Management Institute, Inc.

Participants attending this training session are entitled to receive:

IIBA® 25 Professional Development Hours for initial certification, or IIBA® 25 Continuing Development Units for recertification.

EuroMaTech, as an Endorsed Education Provider (EEPTM), is approved by IIBA® to offer Business Analysis training programmes in alignment with the BABOK® V3.0
