An Intensive 5-Day Training Seminar On

Logistics and Supply Chain

09 - 13 February 2020, Dubai

 [View Details](#)

Logistics and Supply Chain

INTRODUCTION

This EuroMaTech Logistics and Supply Chain Management training course examines the effective management and flow of materials through an organization's supply chain. Significant costs and delays to standard operations and projects are often caused by small inefficiencies in logistics and transport. This EuroMaTech training course discusses how costs can be reduced, performance can be improved as well as an increase in customer satisfaction. The Supply Chain is linked to the organisation in order to appreciate that the effect an efficient Supply Chain has on the effectiveness of the performance.

Participants in this EuroMaTech training course will learn how to:

- Understand the process of the Supply and Demand Chain
- Utilize modern purchasing management techniques
- Improve the warehouse efficiencies with subsequent reduction in stock levels
- Sharpen your negotiation skills
- Manage inventories in a more productive manner
- Appreciate transportation operations

WHO SHOULD ATTEND?

Business professionals who work in logistics, stock control, supply chain warehousing and materials management would find this training session extremely beneficial, enabling them to bring improvements to their area of the business.

PROGRAMME OBJECTIVES

This Logistics & Supply Chain Management training course aims to enable participants to:

- Understand how the supply and demand chains work
- Examine the most effective purchasing practices
- Learn new trends in supplier management
- Gain greater insight into the negotiation process
- Examine inventory reduction techniques
- Explore new methods and technologies in warehousing
- Understand the function of transportation management

TRAINING METHODOLOGY

Participants will learn by active participation during this EuroMaTech training course through the presentation of programme material, exercises, training videos and discussions of "real life" issues in their organizations.

PROGRAMME SUMMARY

The quality of operations in the logistics and supply chain functions has a direct impact on the operating performance of an organization. This EuroMaTech Logistics & Supply Chain Management training course is focused on the most modern techniques for the improved management of the flow of materials into and through the organization. It is concerned with all the areas responsible in the logistics process including procurement, inventory management, warehousing and transportation. It also covers a detailed examination of the supply chain necessary to obtain your requirements in all of these areas.

QUALITY CERTIFICATIONS & ACCREDITATIONS
