Advanced Budgeting and Forecasting

INTRODUCTION

This EuroMaTech Advanced Budgeting and Forecasting programme provides an overview of the essential tools and the skills to build world class standards into your planning, budgeting, performance measurement & reporting system, looking at new and best practice techniques, explain how they complement the traditional financial planning tools, and introducing new concepts for measuring and reporting performance to enhance shareholder wealth creation or provide value for money for Stakeholders.

Important elements of this EuroMaTech programme include:

- Making your budgeting process more efficient & effective
- Understanding how to motivate managers to “buy into” to the budget process in an honest and effective way
- Using case studies and illustrations from real companies to help delegates understand how to apply different planning, forecasting and analysis techniques
- Participants will also be given a detailed set of handouts that will enable them to review the topics covered at a later date

PRE-REQUISITE

Participants should have a basic understanding of financial statements

PROGRAMME OBJECTIVES

- How to implement advanced planning and control techniques into your budgeting process
- Know how to integrate the budgeting process with the development of the company's long-term strategic vision
- Know how to provide a decision support structure that provides timely and useful information to decision makers
- Successfully build an integrated planning, budgeting and reporting process
- Know how to forecast costs and revenues with greater confidence
- Apply management tools to the budgeting process that contribute to strategic goals
- Effectively manage the budgeting process
- Identify key performance indicators for effective and focused decision making
- Develop ways to increase profitability and performance through stream lined planning and reporting

WHO SHOULD ATTEND?

- All professionals responsible for budget preparation and management reporting
- All process owners who require a more in-depth understanding of integrated planning and budgeting techniques,
- Personnel wanting to understand more about Financial planning and cost analysis
- Anyone with direct planning and budgeting responsibility, as well as managers, budget holders, advisors, accountants and business consultants

TRAINING METHODOLOGY

Your programme leader will present, guide and facilitate learning, using a range of methods including the use of the programme material, case studies and discussion of “*real life*” issues in organizations, to ensure the development of skills as well as knowledge

Participants will learn by active participation preparing both budgets and forecasts using a variety of statistical tools and by using budgets to make management decisions.

PROGRAMME SUMMARY

In today's fast changing world Organisations need to be able to respond rapidly to the challenges and global changes surrounding them. Budgeting and forecasting in an essential part of the success of the organisation.

This EuroMaTech programme provides the essential skills necessary to ensure the successful development of budgeting and forecasting techniques, thereby improving your understanding, development, management and control of budgets within your organization.

QUALITY CERTIFICATIONS & ACCREDITATIONS

The PMI® Registered Education Provider logo is a registered mark of the Project Management Institute, Inc.
