Effective Supply Chain, Warehouse and Inventory Management

INTRODUCTION

In today's competitive environment, the best supply chain that offers the highest value to its customers at the most efficient cost will have a distinct competitive advantage. This requires an in-depth understanding of the individual Supply Chain elements, key optimisation and efficiency for each of the elements ensuring that there are robust links between each element and inventory management. These must integrate seamlessly and efficiently to deliver optimal cost and fulfil the organization's promise of value.

Participants in this EuroMaTech training course will examine:

- The various processes in the Supply Chain
- The structure of a Supply Chain
- What makes a Supply Chain successful?
- The role of inventory and effective Warehouse management in the Supply Chain
- Achieving maximum performance in inventory control
- Understanding and implementing the skills needed for managing and controlling warehouses and inventory in the supply chain

WHO SHOULD ATTEND?

- Professionals responsible for operations and strategy
- Professionals involved in supply chain decisions
- People responsible for the planning, execution and control of a supply chain at both warehouse, logistics and inventory levels
- Stakeholders in the supply chain who have an interest in warehouse and inventory management

PROGRAMME OBJECTIVES

- To define and understand the concept of a Supply Chain
- To understand the role of inventory in the Supply Chain
- Critically determine the optimal amount of inventory required
- Implement creative ways of reducing working capital
- Understand the key concepts of inventory control
- Understand and implement essential tools for managing warehouses and inventory in the wider supply chain

TRAINING METHODOLOGY

Participants will learn by active participation throughout the training course through the use of training course materials, exercises, questionnaires, training videos and discussion of "real life" issues in their organisations.

PROGRAMME SUMMARY

This Effective Supply Chain, Warehouse & Inventory Management training course covers essential skills that are necessary to plan, execute and control the Supply Chain and the Warehouses and Inventory within it.
