e-Procurement:

Developing, Implementing and Managing the Complete Process

INTRODUCTION

e-Procurement is the business to business purchase and sale of supplies and services over the Internet. More and more organizations are viewing the application of best practices in e-procurement as being essential skill sets needed by all employees involved in the procurement process. This EuroMaTech training course focuses on the development of e-procurement in an organization that then leads onto the management of the complete e-procurement process.

This EuroMaTech e-Procurement training course develops how to establish an e-procurement system within an organization that needs to purchase through the Internet. The important stage of managing the process is discussed in some depth. We establish how to provide and measure procurement contributions to the organization so that this critical function and all those in it can be elevated to be seen as a core organization competency.

WHO SHOULD ATTEND?

- Professionals in Purchasing, Procurement and Supply Management Operations and Finance
- All those interested in the development and implementation of an e-procurement system.

PROGRAMME OBJECTIVES

- Learn the differences of e-procurement
- Understand the requirements needed to develop an e-procurement system
- Appreciate the principles of negotiation
- Understand how to implement an e-procurement system
- Learn how to manage an e-procurement system

TRAINING METHODOLOGY

Participants will increase their knowledge base and skill sets through a variety of instructional methods including lecture by an experienced practitioner and consultant who has “been there-done that”, individual and group exercises, review of published articles, and group discussions covering current practices and their relationship to the implementation of new concepts.

PROGRAMME SUMMARY

This EuroMaTech training course aims to give participants knowledge of how to establish an e-procurement system and to then develop skills that they can use to manage the system in their organization. It also equips participants with the skills necessary for e-contract negotiating with suppliers by using strategies to obtain a win-win situation.
