

An Intensive 5-Day Online Training Course

# Mastering Business Data Collection, Analysis and Presentation

## PROGRAMME SUMMARY

The Mastering Business Data Collection, Analysis and Presentation virtual training course is structured to balance theoretical and practical hands-on considerations from business analytics. This stimulating learning experience provides participants with opportunities to apply their knowledge in practical problem solving in specific business situations.

We explore good practices of business research and data collection, including tips for asking the right questions and asking the questions right. Then we move to a discussion of common data analysis tools and their application in specific business situations. The next section of the virtual training course focuses on option analysis and development of practical recommendations. The objective of the last section of the virtual training course is to provide participants with the skills and knowledge to communicate business information and deliver business presentations and reports with real impact.

Date	Venue	Fee(\$)
07 - 11 Mar 2021	Live / Online	US\$ 2,400
19 - 23 Sep 2021	Live / Online	US\$ 2,400

## INTRODUCTION

Effective use of business data, information technology and various analytical methods helps managers and employees gain improved insight into their business issues and helps make better informed decisions. Tools and techniques presented in this programme can be applied across many areas in a wide variety of organisations to improve stakeholder satisfaction, enhance return on investment, mitigate business risks and improve planning.

The Mastering Business Data Collection, Analysis and Presentation virtual training course covers the foundational knowledge necessary to collect reliable business data and conduct comprehensive analysis to help maximise organisational value. The virtual training course is focused on the enhancement of essential knowledge and skills and equips participants with a toolbox of ideas and methodologies for effective data collection and analysis.

**Participants on the Mastering Business Data Collection, Analysis and Presentation virtual training course will develop the following competencies:**

- Critical thinking
- Problem definition and business needs analysis
- Business data collection, including design of questionnaires
- Business data analysis
- Feasibility studies
- Management problem solving and decision making
- Influencing stakeholders through persuasive communication

## TRAINING METHODOLOGY

With multiple short case studies, exercises and facilitated discussions of real-life experiences, this course aims to share a wealth of practical tools and methodologies developed through years of management and consulting experience.

## WHO SHOULD ATTEND

The Mastering Business Data Collection, Analysis and Presentation virtual training course will benefit employees and managers who are involved in collection, analysis and communication of business data and information and wish to be able to develop robust and justified business solutions and convince stakeholders to support their recommendations.

This EuroMaTech virtual training course will equally appeal to decision makers and those who support them in the private, public and not-for-profit sectors.

## PROGRAMME OBJECTIVES

This EuroMaTech virtual training course aims to expand participants' knowledge of business data collection and analysis methodologies to help make better decisions and create real business value. It provides a productive environment to develop hands-on skills and practice specific diagnostic tools and techniques.

**As a result of attending this virtual training course, the participants will be able to:**

- Understand the business context of data collection
- Learn to obtain and analyse business information from a wide range of primary and secondary information sources including stakeholder consultations, surveys and research
- Use proven diagnostic and analytical tools to organize, verify, validate and prioritise data
- Apply some simple statistical analysis tools to obtain specific business insights
- Develop and present viable business solutions based on a rational analysis of options
- Learn a simple, tried and tested approach for persuasive and influential presentation of business information

## In-house Training
