An Intensive 5-Day Training Course

Strategic Contract Management

Key Concepts, Processes and Current Practices

PROGRAMME SUMMARY

Structured to offer a balance of strategic and operational considerations, Strategic Contract Management provides participants with the essential knowledge and skills required to effectively and efficiently deliver contract outcomes while minimising risk exposure. It outlines the tools, techniques and principles of a systematic approach to the contract management processes, facilitating methodical, efficient and consistent achievement of business objectives.

Participants will take away a comprehensive set of notes, including templates, tools and check-lists that they will be able to adapt for their business to assist in better managing projects and contracts.

Date	Venue	Fee(\$)
21 - 25 Mar 2022	London	US\$ 5,950
13 - 17 Jun 2022	London	US\$ 5,950
29 Aug - 02 Sep 2022	Bali	US\$ 5,950
07 - 11 Nov 2022	Baku	US\$ 5,950

INTRODUCTION

Formulating business needs, defining and planning projects, selecting providers, negotiating contracts and subsequent management of project delivery demands detailed understanding and astute management skills to minimise risks and maximise organisational value. Contract failures can be time consuming, disruptive and very costly.

This EuroMaTech highly intensive Strategic Contract Management training course will look at a number of advanced concepts in Contract Management that will enable the participants to deal with the ever-changing business environment and to apply a proven systematic approach to the contract management process, facilitating effective and efficient achievement of business objectives.

Participants on the Strategic Contract Management training course will develop the following competencies:

- Effective Management of Contract Stakeholders
- Strategic procurement planning and development of acquisition strategy
- Value Based Procurement
- Contract Negotiation
- Contract Risk Management
- Supplier Relationship Management
- Basic Project Management
- Contract Monitoring and Control

The EuroMaTech training course does not aim to provide a comprehensive coverage of the legal aspects of contracts. It will briefly address the basic concepts from Contract Law that every professional should be aware of and focus on the organisational processes and relationship management issues confronted by contract professionals.

Virtual learning service available

TRAINING METHODOLOGY

Highly cognisant of different learning styles, this Strategic Contract Management training course combines high level of delegate interaction with conventional lecture style and practical exercises, case studies, group discussions and real life examples. Delegates are encouraged to contribute their own experiences for discussion and debate which facilitates exchange and enhancement of delegates' knowledge and skills from a variety of industries.

In-house Training

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.

WHO SHOULD ATTEND

This EuroMaTech Strategic Contract Management training course would be particularly suitable for:

- Professionals from all industries who need to advance their skills in contract management
- Personnel at all levels who deal with vendors and contractors, and are interested in maximising the value of contract expenditure
- Personnel from project teams, planning departments, process improvement teams, contracting teams, internal audit personnel, risk and /or contract strategists

PROGRAMME OBJECTIVES

The Strategic Contract Management training course is designed to equip the participants with enhanced contract management knowledge and skills. As a result of attending this EuroMaTech training course, the participants will be able to:

- Expand their knowledge of key contract management concepts, contractual processes, good practices and issues
- Improve managerial approaches to contract management and build essential skills to effectively and efficiently deliver contract outcomes
- Focus on the delivery of measurable organisational value in every contract, every time
- Identify and mitigate contract risk factors and associated commercial implications
- Understand different types of contractual relationships and select an effective contracting strategy
- Appreciate stakeholder management principles and select an effective stakeholder management approach to help manage relationships, while ensuring they deliver what promised
- Identify necessary pre-contract activities, including accurate assessment and articulation of business requirements, tendering, tender evaluations and supplier selection
- Apply hands-on skills for every contract stage and consider what it takes to perform the key tasks involved throughout the contract life cycle
- Apply some “tricks of the trade” in negotiation, procurement and contract management
- Apply basic project planning, scheduling and budgeting techniques to establish effective contract baselines
- Review robust contract management documents that will survive tough audits
- Develop strategies for effective project execution, monitoring and control
- Explore how to manage contracts that don't go as planned and lead to disputes, poor performance, variations to plan and, if it comes to it, premature contract terminations
- Immediately implement steps needed to maximize contract value
