

An Intensive 5-Day Online Training Course

Financial Analysis:

Evaluation, Budgeting & Decision Making

PROGRAMME SUMMARY

This EuroMaTech online training course covers essential financial skills such as understanding and interpreting numbers to build the bigger picture, utilizing tools to make rational financial decisions, and communicating analytical conclusions persuasively and with impact.

Date	Venue	Fee(\$)
15 - 19 May 2022	Live / Online	US\$ 2,400
25 - 29 Sep 2022	Live / Online	US\$ 2,400

INTRODUCTION

This EuroMaTech online training course will provide you with vital skills such as financial forecasting, formulation and analysis of different scenarios, and the confidence to speak persuasively and with assurance about your financial analysis with colleagues and clients, thereby enhancing your reputation as a finance expert. By applying these skills to the tasks and challenges you face in your work, you will experience breakthroughs you may never have thought possible.

Participants will develop and refine the following competencies:

- Reading and understanding financial information to evaluate performance and trends accurately
- Embedding and applying present value concepts to expected future cash flows to make the best financial decisions
- Using comparative ratio analysis to pinpoint areas of concern
- Identifying key success factors, warning signals, negative and positive trends
- Becoming familiar with key financial metrics used by leading global companies
- Projecting with confidence the future performance of your firm and its investments through accurate, real-world budgeting

available

TRAINING METHODOLOGY

This EuroMaTech Financial Analysis online training course will combine presentations with interactive practical exercises, supported by visual materials, activities, discussions and examples. Delegates will be encouraged to participate actively in relating the principles of financial analysis to the particular needs of their workplace. Relevant case studies will be provided to illustrate the application of each concept in an operating environment. Each learning point will be reinforced with practical exercises.

Advanced mathematical concepts are minimized wherever possible and presented in a visual way that is easy to understand with examples demonstrated.

In-house Training

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.

WHO SHOULD ATTEND

- Finance professionals from all sectors, who are keen to boost their performance and knowledge, skills and reputation in their firms and in the industry
- Personnel related to, moving into or aspiring to roles in finance that require deeper understanding and intelligent interpretation of financial information

PROGRAMME OBJECTIVES

This Financial Analysis online training course will enable participants to achieve the following objectives:

- Understanding the content of, and relationships between, primary financial statements (income statement, balance sheet, cash flow statement)
- Utilizing financial statements to evaluate the financial and strategic performance of an organization
- Appreciation of discounted cash flow (DCF) techniques and their application to financial decision making
- Identifying key success factors, early warning signs, and financial momentum signals in your own industry sector
- Understanding of EVA (Economic Value Added), RONA (Return on Net Assets) and other indicators, as performance metrics
- Framing the value creation/destruction process in mergers and acquisitions from the market's perspective and recognizing signals from the market to management
- Building a realistic budget, under a base case, upside and downside scenarios
- Identification and utilization of financial and business data sources that give insights into business and financial strategies
- Constructing and using rigorous excel spreadsheets for financial analysis, from the basics to more complex models
- Enhancing your professional and personal networks among colleagues of similar background, talent and potential

QUALITY CERTIFICATIONS & ACCREDITATIONS

COURSE OUTLINE

Day 1
