

An Intensive 5-Day Training Course

Talent Retention Through Remuneration and Training

Managing Pay Scales, Promotions and Provision of Training

PROGRAMME SUMMARY

This EuroMaTech training course is designed to provide the essential skills and knowledge related to Talent Retention through remuneration and training. This training course will allow participants to explore a broad overview of the topic. From the initial introduction, we will explore various issues in sufficient detail to allow participants to consider the implementation of new modern approaches into their organizations and weigh up the potential benefits and advantages of each approach.

02 - 06 Oct 2022	Dubai	US\$ 4,950

INTRODUCTION

Retention is an important issue in organizations, regardless of whether the economy is declining or booming across all industries and countries. The challenge to retain key talents in order to sustain a competitive advantage preoccupies the minds of many business leaders. Today's key employees have many employment options. One question that arises in this context is: how can remuneration and training foster employee commitment? Research reveals that, even though pay and benefits count, one cannot depend on money alone to retain talented employees. Among other things, key motivators include an opportunity to learn and grow and recognition of achievement.

This EuroMaTech training course will cover various areas such as pay and benefits, but also key motivators, which go beyond money such as training, promotion and transfers. However, sometimes parting from employees is unavoidable. Therefore, this training course also offers advice and guidance on how to manage dismissals fairly and effectively.

Key areas covered include:

- The challenge of retaining key talent
- Reward Management
- Designing a pay structure
- Managing promotions
- Managing transfers
- Managing retirement
- Managing disciplining
- Managing dismissals
- Capture the causes of attrition through exit interviews
- How to foster employee commitment?
- Training and Training Needs Analysis

TRAINING METHODOLOGY

Dynamic presentations supporting each of the topics together with interactive trainer lead sessions of discussion. There will also be practical sessions where participants have the opportunity to practice and experience related activities. Case studies, videos, small group work, exercises and feedback will be used to facilitate learning.

In-house Training

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.
