

An Intensive 5-Day Online Training Course

NEBOSH HSE Certificate in Process Safety Management

PROGRAMME SUMMARY

EuroMaTech's NEBOSH HSE Certificate in Process Safety Management covers important aspects of safety within the process industry and includes past accident and the lessons learnt, techniques of risk management in the oil and gas industry, process safety, fire and emergency response.

Date	Venue	Fee(\$)
27 - 31 Mar 2022	Live / Online	US\$ 3,000
02 - 06 Oct 2022	Live / Online	US\$ 3,000

INTRODUCTION

It is far too often that accidents in Oil and Gas organisations and other major process industry organisations have occurred with loss of life, catastrophic damage to the environment, asset losses and business disruptions. Accidents like the Texas City Refinery and the Deepwater Horizon have occurred and will continue to occur if the control process is insufficient or ineffective. The process industry (including the Oil Gas and Chemical Industry) requires a high level of expertise for control of hazards.

The National Examination Board in Occupational Safety and Health (NEBOSH), in collaboration with the UK's Health and Safety Regulator, the Health and Safety Executive (HSE) developed brand new professional qualification "NEBOSH HSE Certificate in Process Safety Management" specifically for process industries. The development of this syllabus by NEBOSH was prompted precisely because of the continuation of accidents in the process industry. This EuroMaTech online training course is the ultimate in Process Safety Management as it deals with, not only the systems, but how these systems should be utilised and the hazard protections process necessary.

Participants on EuroMaTech's NEBOSH HSE Certificate in Process Safety Management will develop the following competencies:

- Process Safety Leadership
- Management of Change
- Competence in Process Safety
- Management of Process Risk
- Process Safety Hazard Control
- Fire and Explosion Protection

TRAINING METHODOLOGY

EuroMaTech's NEBOSH HSE Certificate in Process Safety Management is supported with a reference book, lectures supported by Power Point slides, team exercises, questionnaires and videos. Active participation is essential and encouraged during the programme with regular feedback and reviews daily.

The duration of this NEBOSH HSE Certificate course is 5 days followed by a 90-minute 40 question multiple-choice exam.

In-house Training

EuroMaTech is capable of conducting this training programme exclusively for your delegates. Please e-mail us on inhouse@euromatech.ae for further information and/or to receive a comprehensive proposal.

WHO SHOULD ATTEND

EuroMaTech's NEBOSH HSE Certificate in Process Safety Management is aimed at professionals, who are involved in the Process Industry have responsibilities for health and safety and require an internationally recognised measure of competence in this field.

This online training course is also beneficial to a wide range of delegates including but not limited to:

- Team Leaders
- Production, Process, Maintenance Personnel
- HSE Personnel
- Supervisors, Safety Representatives
- Health & Safety Advisors
- Those involved in Risk Management
- Graduate Engineers

PROGRAMME OBJECTIVES

Participants on EuroMaTech's NEBOSH HSE Certificate in Process Safety Management will:

- Understand what is Process Safety Leadership
- Appreciate how lessons can be learnt
- Identify the key elements of a Process Safety Management system
- Understand Risk management techniques
- Explain the purpose and requirements of standard operating procedures
- Appreciate the controls for safe start-up and shutdown of a process plant
- Recognize the hazards of Bulk storage operations
- Explain fire and explosion hazards relating to process industries
- Learn Hydrocarbon process safety including safe maintenance

QUALITY CERTIFICATIONS & ACCREDITATIONS

COURSE OUTLINE

Day 1

Process Safety Leadership

- Process safety Management meaning and the difference from personal safety
- The role of process safety leadership
- Organisational learning and sharing lessons learned
- Management of change to effectively reduce risks to process and plant
- Worker engagement benefits and limitations
- Competence and the importance to process safety

Day 2

Management of Process Risk

- Establishing a process safety management system
- Risk management techniques used within the process industries
- Asset management and maintenance strategies
- Role and purpose and features of a permit-to-work system
- Safe shift handover
- Contractor Management

Day 3

Process Safety Hazard Control

- Operating procedures
- Safe start-up and shut-down
- Safety critical performance standards
- Utilities
- Electricity / static electricity
- Dangerous substances
- Reaction hazards
- Bulk storage operations

Day 4

Fire and Explosion Protection

- Fire hazards
- Fire and explosion control
- Dust explosions
- Emergency preparedness

ASSESSMENT EuroMaTech's NEBOSH HSE Certificate in Process Safety Management is assessed with a 90-minute 40 question multiple-choice exam.

EuroMaTech is an Approved Centre with the National Examination Board in Occupational Safety and Health (NEBOSH). The NEBOSH Approved Centre status enables EuroMaTech to offer globally recognised International General Certificate in Occupational Health and Safety qualification.

Documentation

High Quality material has been prepared by the Seminar Leader for distribution to delegates.

Certificates

A Certificate of Completion will be issued to those who attend & successfully complete the programme.

Registration & Payment

Please complete the registration form on this page & return it to us indicating your preferred mode of payment.

For Further Information, email us at info@euromatech.ae.

Cancellation Policy

Request for seminar cancellation must be made in writing & received at EuroMaTech three weeks prior to the seminar date. A U.S.\$250/- processing fee will be charged per delegate for each cancellation. Thereafter, we regret that we are unable to refund any fees due, although in such cases we would be happy to welcome a colleague who would substitute for you.

Disclaimer

EuroMaTech reserves the right to alter the content, location of the Seminar, or the identity of the speakers in case of events beyond our control.
