

An Intensive 5-Day Online Training Course

Effective Supply Chain, Warehouse and Inventory Management

PROGRAMME SUMMARY

This Effective Supply Chain, Warehouse & Inventory Management online training course covers essential skills that are necessary to plan, execute and control the Supply Chain and the Warehouses and Inventory within it. This EuroMaTech online training course begins with the concept of a Supply Chain and will discuss all the aspects relating to Supply Chain, Warehouse and Inventory Management.

| Date | Venue | Fee(\$) |
|----------------------|---------------|------------|
| 12 - 16 Jun 2022 | Live / Online | US\$ 2,400 |
| 30 Oct - 03 Nov 2022 | Live / Online | US\$ 2,400 |

INTRODUCTION

In today's competitive environment, the best supply chain that offers the highest value to its customers at the most efficient cost will have a distinct competitive advantage. This requires an in-depth understanding of the individual Supply Chain elements, key optimisation and efficiency for each of the elements ensuring that there are robust links between each element and inventory management. These must integrate seamlessly and efficiently to deliver optimal cost and fulfil the organization's promise of value.

Participants in this EuroMaTech online training course will examine:

- The various processes in the Supply Chain
- The structure of a Supply Chain
- What makes a Supply Chain successful?
- The role of inventory and effective Warehouse management in the Supply Chain
- Achieving maximum performance in inventory control
- Understanding and implementing the skills needed for managing and controlling warehouses and inventory in the supply chain
