

An Intensive 10-Day Online Training Course

The 10-day Advanced Contracts and Purchasing Management

PROGRAMME SUMMARY

This Advanced Contracts and Purchasing Management online training course covers the contracting process from tendering and award, through planning and management to close out and resolution of disputes. It then covers the purchasing process from specification through to contract completion. The intention is to further develop current skills with application to a wide range of situations and to allow participants to have an awareness of practices in other regions and other industries which may add value to their own situations.

INTRODUCTION

The effective expenditure of enormous sums of money and resources is dependent on successful purchasing and contract management activities. Selecting and applying the appropriate skills and methodologies to ensure value for money and high quality delivery by suppliers, requires collaboration across all functions and a strong contractual underpinning of the supplier relationship. It is essential to select the appropriate contracting models for creating and managing formal agreements with suppliers of goods and service to achieve successful outcomes. This 10-day Advanced Contracts and Purchasing Management online training course is designed to:

- Explore the advanced skills to enhance performance in contract selection, development and management and in purchasing and procurement
- Enable participants to practice and develop their purchasing and contract skills
- Enable participants to develop appropriate sourcing and supplier management plans
- Help participants to begin immediate implementation of the steps needed to create total value for their organisation
